OUR STORY

THE DARDINI TIMELINE

FROM FAMILY ROOTS IN LOGISTICS TO GLOBAL DESIGN SOURCING, OUR STORY HAS GROWN THROUGH CRAFT, CONNECTION, AND PURPOSE.

2005

BEFORE THERE WAS DARDINI DESIGNS THERE WAS DARDINI LOGISTICS. MICHAEL BUILT HIS CAREER IN NATIONWIDE LOGISTICS, MOVING FREIGHT AND SPECIALTY PRODUCTS. DARDINI DESIGNS GREW OUT OF THAT WORK. THE SAME TEAM THAT LEARNED HOW TO MOVE CONTAINERS NOW USES THOSE RELATIONSHIPS TO SOURCE FROM TRUSTED FACTORIES

2022

FRIENDS, CONTRACTORS, AND FABRICATORS WALK HIS JOBS AND START ASKING WHERE EVERYTHING CAME FROM. WHAT BEGAN AS PRIVATE SOURCING FOR MICHAEL'S PERSONAL BUILDS QUIETLY TURNS INTO A SMALL PIPELINE FOR LOCAL PROJECTS. MORE CONTAINERS ARRIVE, NOW PACKED WITH EXTRA MATERIAL FOR TRUSTED TRADES AND CLIENTS IN ARIZONA.

2026

THE SHOWROOM STEPS OUT OF THE PRIVATE WORLD AND INTO THE MARKET. DARDINI DESIGNS BEGINS ACTIVELY INVITING THE WIDER ARIZONA COMMUNITY IN!

2020

MICHAEL MAKES ARIZONA HOME AND STARTS RENOVATING HIS OWN PROPERTIES. HE RUNS INTO THE SAME PROBLEM AS EVERYONE ELSE HERE. GOOD MATERIALS ARE EITHER TOO EXPENSIVE, TOO GENERIC, OR STUCK IN A LONG SUPPLY CHAIN. SO HE TAPS HIS OVERSEAS CONTACTS AND BEGINS IMPORTING STONE, WINDOWS, AND FIXTURES FOR HIS OWN PROJECTS FIRST.

2024

DARDINI DESIGNS IS OFFICIALLY LAUNCHED AS THE DESIGN ARM OF THE LOGISTICS COMPANY.

2025

THE EXCLUSIVE SCOTTSDALE SHOWROOM OPENS ITS DOORS.

How We Got Here

Dardini got its start in 2020, built on Mike's 20 years in logistics and a sharp eye for sourcing. What began with freight turned into remodels, custom builds, and a growing network of makers, manufacturers, and materials around the world.

Our passion for travel has opened doors, letting us build relationships face-to-face and bring home products with real stories behind them. We don't just pick pretty things. We understand how they move, what they cost, and how to get them here.

Dardini Designs is the result of that hands-on experience, mixing utility with aesthetic in a way that actually makes sense.

MEET MIKE FOUNDER

Mike comes from freight. He knows how to move things, how to build them, and how to source what works. With a background in logistics and a respect for craftsmanship, he brings a practical eye to design that's rooted in experience. Dardini isn't here to compete with builders or designers. We're here to support them, source smarter, and showcase products in a way that actually works. Off the job, you'll find Mike in the garage or on the track. Racing, restoring, always in motion.

Contact

We work closely with designers, builders, and contractors to source, ship, and deliver the materials that bring projects to life. Contact our team to bring your project to life or ask about what's in stock!

We travel for our clients, visiting factories, quarries, and studios across continents to find the right mix of quality, craftsmanship, and aesthetic value.

Every partnership we build and every product we choose is guided by one principle: function should meet beauty, and sourcing should be effortless.
